📍 London, UK

SKILLS

JavaScript

React

Git

Firebase

Redux

TypeScript

SQL

Tailwind CSS

Java

Springboot

C#

.NET

Blazor

CAREER OBJECTIVE

While I was teaching technology, I became driven with the purpose of modernizing education, and realized that the best way to do this was to develop better digital solutions. I am still passionate about EdTech, but there is such a diverse range of services that can benefit from improved digital and coding solutions, and I would like to develop new and creative approaches to tackling a variety of programming projects.

WORK EXPERIENCE

FrontEnd Developer

Coinmetro

📅 Aug 2022 - Jan 2023 📍 Remote, Estonia

- Tech used: React, Typescript, Material UI, GIT
- During 6 months I had the opportunity to work as a front-end developer for a finance company. I was developing the webpage, maintaining a very complex React code using Material UI.
